

MOSAND
HERJ LTD.

About the Brand:

Mosand Herj Ltd. (RC 1276468) is a wholly indigenous company involved in delivering quality Engineering, Procurement, Construction, dredging, shoreline protection and waste disposal services to industrial and infrastructural clients.

Our Service:

Mosand Herj provides Oil and Gas Engineering solutions, Environmental consultancy, Water engineering and Production, Construction, Marine Logistics and procurement, Dredging and HSE services. We are vast in our chosen areas of expertise, and we are strategically poised to deliver excellent services with our standard equipment and experienced personnel.

Objective:

Our emergence into the Nigerian industry is already blazing the trail for others to follow. Within a short period of time, we have gone into partnership with some of the most experienced and efficient firms, aiding our productivity, stretching our experience beyond a 100 years cumulatively and exposing us to vast capabilities.
